

MOTION BY MAYOR MICHAEL D. ANTONOVICH

SEPTEMBER 1, 2015

FOOD FACILITY GRADING SYSTEM

As directed by the Board on June 9, 2015, the Department of Public Health conducted an evaluation of the retail food facility grading system in Los Angeles County. This review has been completed and a report was provided to the Board on August 18.

The findings of the review resulted in recommendations for improvement in the following four major areas:

- A. availability of public information
- B. methods of scoring and grading
- C. optimize inspections through greater use of inspection data
- D. changes in policies and procedures for revocations, closures, complaint inspections and owner initiated inspections

The Department has indicated it has initiated implementation of the recommended improvements and will work with stakeholders during the implementation process. The Department has also indicated there may be additional recommendations resulting from these ongoing activities.

I, THEREFORE, MOVE that the Board of Supervisors instruct the Interim Director of the Department of Public Health to provide monthly progress reports to the Board on the implementation activities.
